

Facilitation Manual: Remake Learning Pathways & Playlists RFP

Matchmaking Happy Hour: The Caucus Activity

- Collaboration is going to be key, so we wanted to use our time tonight to start seeding some potential Playlist partnerships.
- In the spirit of this election year, we're going to do this by a Caucus.
- First, we'll **Identify** some potential learning pathways in Pittsburgh. We've started a list that includes:
 - **Art & Design**
 - **Civic Engagement**
 - **Coding, Gaming, & Robotics**
 - **Engineering & Making**
 - **Management, Finance, Professional Services**
 - **Media Making & Storytelling**
 - **Retail & Hospitality**
 - **Science & Sustainability**
- You can see we've positioned delegates around the room with signs for each of these, plus a few wildcard topics to be determined.
- Next, we'll ask you to **Cluster** around the pathway that appeals to you.
- Once you're settled into your first cluster, go ahead and **Share** your specific interest in the pathway.
- **Team Up** with others who share your interest and discuss the learning experiences you can create handoffs between. If your whole cluster shares the same interest, then work together as a whole.
- Finally, using the provided worksheet, create a **Roll call** of the people , including anyone who might be missing from tonight's event.

[Activity begins; see the following page for example paddles]

Next Steps

- Thank you caucusing-- you've done your civic duty as a member of the Remake Learning Network.
 - Please leave your Rollcall so that it can be collected by a Sprout staffer.
